

**SINGLES LIBRARY**  
**by Joshua Kosman**  
**(from an idea by Fraser Simpson)**

The Singles Library stocks all the books, videotapes, and DVDs that a standard library would. The only difference is in the ultra-compact card catalog, which uses the Single Letter principle: In each title in the catalog, each letter is given only once, on its first appearance. For further compactness, all spaces and punctuation are deleted.

So, for example, ONE FLEW OVER THE CUCKOO'S NEST is listed as O N E F L W V R T H C U K S. How many of these entries can you decipher?
