

# Tarnished Words by Wei-Hwa Huang

The answer to each clue on this list matches with one answer on the other list (**Silvered Words**), in a way that you must determine. The answer to the clues may be phrases or proper nouns, and the clues themselves may be vague or obscure. Write down each pair next to the clue, and then write down the indicated letter in the "Silvered" word. If you've done this correctly, you should have the second half of an appropriate quotation by Euripides.
