

The Apple Store

WE HAVE LEARNED OF THINGS CALLED "APPLES". THEY ARE VERY SHINY AND APPEAR TO DRIVE EARTHLINGS MAD WITH DESIRE. PLEASE INVESTIGATE.

Start at the word APPLE. By either changing one letter or adding one letter (but not both), then rearranging the letters, you can get a word which is clued in one of the adjacent boxes, orthogonally or diagonally. To assist, the first letter of each answer is provided.

Continue until you've visited every box exactly once. When you're finished, the circled letters, taken in path order, will indicate two pieces of information you need next: one from the last word in the chain, and the other from the step that leads to it. Assemble the two pieces of information and apply the final word's clue to the result to reveal your location.
