

The Denouemall

We've lost them again! The Mallonians appear to be gathering their forces together for one final grand mall assault. We must stop them before it's too late!

We intercepted one more message. Our analysts have determined the following:

- The numbered boxes refer to letters in the Borders locations and provide some kind of hint to the geographic location of the mall.
- The boxes to the right have something to do with the U.S. Postal Service.
- The Mallonians appear to be targeting seven locations within the mall. It seems these locations are somehow encoded in their own names.

Please hurry. Our country, our very way of life, may be in danger. If you decipher the message, report to headquarters immediately. Tanks are at the ready.

-AK
