

GAME TOGS

by Martin Eiger (Wrybosh)

Your name tag should have your name and brief biographical blurb, modified in one of three ways:

Letter Addition: a letter is added to your name and each word of your blurb.

Example:

BARRACK
in ruin they
uncited statues

(I run the
United States)

Letter Change: a letter is changed to another in your name and each word of your blurb.

Example:

AHNOLD
bedded hos bare

(wedded hot
babe)

Letter Deletion: a letter is deleted from your name and each word of your blurb.

Example:

ON
move tar, resident

(movie star,
president)

We recommend against, but do not prohibit, the use of foreign languages for your original and/or modified biographical blurbs. For example, a German woman can be “dire fraud”. More people will understand your blurb if you use the recommended languages for this game, English and Telegraphese (like English, short words optional).
