alphA Blocker – answeR Sheet

When you have completed the grid, the shaded letters, read in *clue* order, spell out 9 words with eight “alphA Blockers” missing. Inserting the missing pairs of letters produces a description of an event (not quite grammatically correct) with enumeration (4,3,7,4,7,4,5,4,4). Can you name the event in two words that provides a further example of this puzzle’s theme?

Description: _____

Event: _____
