

# License Plate Stories

by NeilFred Picciotto (Renfield)

In the classic License Plate Game, you come up with a word that contains the license plate's letters in the same order (need not be consecutive); shorter words are better. Example: QNO→EQUINOX

For this variation, you'll add a sentence to the story using a "License Plate Game" word for one or more of the license plates revealed on the page so far. Cross out the license plates you've used. Then pass the sheet and advance the fold to reveal more "cars".

# License Plate Stories

by NeilFred Picciotto (Renfield)

In the classic License Plate Game, you come up with a word that contains the license plate's letters in the same order (need not be consecutive); shorter words are better. Example: QNO→EQUINOX

For this variation, you'll add a sentence to the story using a "License Plate Game" word for one or more of the license plates revealed on the page so far. Cross out the license plates you've used. Then pass the sheet and advance the fold to reveal more "cars".

# License Plate Stories

by NeilFred Picciotto (Renfield)

In the classic License Plate Game, you come up with a word that contains the license plate's letters in the same order (need not be consecutive); shorter words are better. Example: QNO→EQUINOX

For this variation, you'll add a sentence to the story using a "License Plate Game" word for one or more of the license plates revealed on the page so far. Cross out the license plates you've used. Then pass the sheet and advance the fold to reveal more "cars".
